Note 1: The sequence of courses suggested may not fit the circumstances of every student. Students should contact their college advisement center for help in outlining an efficient schedule.

Note 2: Students are encouraged to complete an average of 15 credit hours each semester or 30 credit hours each year, which could include spring and/or summer terms. Taking fewer credits substantially increases the cost and the number of semesters to graduate.
No more than 3 hours of credit below C- is allowed in major courses.

**REQUIREMENT 1** Complete 2 courses
- STAT 121 - Principles of Statistics 3.0
- STAT 274 - Theory of Interest 3.0

**REQUIREMENT 2** Complete 2 courses

- STAT 475 - Life Contingencies 3.0

### ACTUARIAL EXAMS:

Actuaries enjoy excellent job security, high incomes, and a low-stress work environment. Careers in actuarial science are consistently ranked among the top three professions. Competent actuaries are highly recruited and can have many professional opportunities. Actuaries are employed across a wide variety of industries and typically become established in one of the following career tracks: enterprise risk management, quantitative finance and investment, life insurance, health insurance, and retirement benefits. By focusing on the development of data analysis skills, actuaries can also easily transition to business analytics settings.

### ACTUARIAL EXAMS:

Actuaries are required to demonstrate their proficiency by passing a series of competency exams offered by one or more of the principal actuarial societies. It typically takes 6-10 years to pass all of the exams; virtually all actuarial interns are required to have passed at least one of these exams as a condition for employment. The BYU Actuarial Science degree provides students with the opportunity to study significant portions of the material covered in the first five exams offered by the Society of Actuaries and accepted by the Casualty Actuarial Society (the two major actuarial societies in the United States).

The correspondence between the actuarial exams and available BYU course work is roughly as follows:

- **Exam P:** Stat 240, 340, 372 (full coverage)
- **Exam FM:** Stat 274 (full coverage)
- **Exam MFE:** Stat 377 (about 90% coverage)
- **Exam C:** Stat 240, 340, 477 (about 90% coverage)

In addition to the exams the societies accept the following sets of courses for the Validation by Educational Experience (VEE) credit:

- **Applied Statistical Methods VEE:**
  - Stat 330 (has Stat 230 prereq.)
  - Corp Finance VEE: Fin 201
  - Economics VEE: Econ 110

**ADVISING:**

SAS/BYU Applied Statistics and Advanced SAS Programming Certificate. Students who earn a B or higher in the applied and computing core classes (Stat 124, 224, 230, 330, 381) are eligible to receive a certificate jointly issued by SAS and BYU which can be listed on a resume. More information is available at http://statistics.byu.edu/content/sas-certificate-opportunities.

INTERNSHIPS
The department maintains a list of companies that have hired BYU Actuarial Science students as interns in the last three years at: http://statistics.byu.edu/content/actuarial-company-database.

MAP DISCLAIMER
While every reasonable effort is made to ensure accuracy, there are some student populations that could have exceptions to listed requirements. Please refer to the university catalog and your college adviseeent center/department for complete guidelines.
